An Old Legend.—Trees is a beautiful legend illustrating the blee-"dness of performing our duty at whatever cost to our own inclinations. A beautiful vision of our Saviour had appeared to a monk and in silent bliss he was gazing upon it. The hour arrived at which he was to feed the poor at the door of the convent. He lingered not in his cell to enjoy the vision but left to perform his humble duty. When he returned he found the blessed vision still waiting for him, and uttering these words: "Had'st thou stayed I must have fled."

CLIPPER TO MOWER AND REAPER FOR 1870.

FARMERS, LOOK TO YOUR INTEREST

THE CELEBRATED

N. Y. CLIPPER REAPER & MOWE In Lightness of Draught, Speed, Durability,
Convenience and Cheapness.

has taken the Medal at twenty-odd different State Fairs and Trials, and now stands confessedly the first REAPING AND MOW NG MACHINE 1: the World.

HAVING purchased the Agency for this portion of Maryland, the Undersigned offers with confidence the above celebrated Mower and Reaper to Farmers as the best Machine ever constructed. The points of excellence which it claims over all other Machines are some of them subjoined:

1. The Wheels are large, and the width they are apart gives steadiness of motion. They are both Drivers, each acting independently of the other, and each has ten bracing wrought-iron

spokes; 2. The Pauls are encased inside the hubs the wheels;
3. The Iron Frame encases the bevel-gearing xletree, and shafting;
4. There are only two pairs of Gear-Wheele 4. There are only two pairs of the warms, the main one being the spur;
5. The Gear-Shifter, to stop and start the knife, is operated by the foot of the driver;
6. The Lifter-Lever, for raising the finger-bar, is convenient to the driver's right hand;
7. The Pole is so placed as to avoid sidedraught. It is binged to the frame, which presents on the necks of the horses; vents pressure on the necks of the horses;
8. The Foot-Board and Tool-Box are com oined in one casting;

9. The Scat and Scat-Springs are so construct

and knife;

11. The Cutters are located in front, and at the right hand of the driver;

12. The Connecting-Rod is made from the best hickory; it does not break the knife-head, and it light alastic and strong: hickory; it does not break the knife-head, and is light, clastic and strong;
13. The Knife-Head has broad bearings, and a Ball-and-Socket joint;
14. The Stroke of the knife is three inches;
15. The Ribbed, Runner-Shaped, Cast-Steel Finger Bar is, stiff, light and strong; it is hinged, and can readily be folded for transportation:

16. The Fingers are cast-steel; the slots an points are tempered;
17. The Inside and Outside Shoes are malleabl

There is no choking, no rushing the horses, none of the worry and vexation that attend the working of most machines.

Everything works smoothly and beautifully, and best of all there is no strain upon the horses—a slow steady, gait being all that is necessary to insure

It is the best remedy known for Whooping Cough, Asthma, Dryness or Tickling in the Throat, Spitting of Blood, and the Cough succeeding the Measles.

There is probably no Remedy before the public which has met with higher culoglums or greater favor where it is known, than that which I here offer; and I am satisfied that the high estimation in which this Great Remedy is held arises from its intrinsic virtues, which experience has shown it to possess in the relief or permanent cure of the above affections.

There are few persons, if we except the medical faculty, who are aware of the great fatality attendant upon the above mentioned complaints. Thousands are yearly consigned to the grave by the fell destroyer, among them some of the most amiable and interesting of the human family.

Diseases of the lungs are both hereditary and

Diseases of the lungs are both hereditary and acquired. By proper treatment hereditary disease may be kept off, and when it has gone to a great length, its sufferings may be palliated. It is however to that class of Pulmonary and Catarrhal Affections that arise from neglect of colds that our remedial agents are

We are now prepared to furnish all classes with constant employment at home, the whole of the time or for the spare moments. Business new, light, and profitable. Persons of either sex easily earn fifty cents to five dellars per evening, and a proportional sum by devoting their whole time to the business. Boys and girls earn nearly as much as men. That all who see this notice may send their address, and test the business, we make this unparalleled offer: To such as are not well satisfied we will send \$1 to pay for the trouble of writing. THE GREATEST REMEDY EVER DISCOV-

For the above diseases. It is a compound very pleasant to the taste, and may be given with safety to the most tender infant. Unlike many boasted remedies, this praation is no Quack Medicine—claiming nothing for itself which it will not perform; neither is it a secret nostrum, as its composition has been submitted to a number of intelligent Scientific men, both Physicians and Chemists, and it has met with their hearty approval and recommendation. Based upon the most recent knowledge we possess of the action of the Human System, both in its healthy and diseased condition, this Pulmonary Balsam is composed in perfect harmony with the operations of nature, and under its use the digostive organs become strength ened, and the general health improved. It has become so customary to append certificates of cures, to preparations before the public, that I hesitated as to the propriety of the course knowing that little credit is attached to most of them. Its merits have been so thoroughly that it and appropriated that it will only be ne-

knowing that little credit is attached to most of them. Its merits have been so thoroughly tested and appreciated, thet it will only be necessary to give it a fair and impartial trial, to be convinced of its efficacy.

The faded cheek, the pale and wan fea-tures, the dull eye, the clouded intellect, the deep heaving sigh, the feeble and emaciated frame, the dejected brow, the tottering gait, all indicate previous transgressions of law. Knowing that "procrastination is the thief of time," all intelligent beings apply for some remedy as soon as circumstances permit; while those who do not act upon the principle that "delays are dangelous," generally linger, lose

more time and pay more money.

Thousands of mothers and daughters,

suffering. lingering and dying from the effects of some dreaded and dreadful

Female Complaint, that claims its Vietins throughout the

peril at the commencement of menstruation, while older ones dread its decline at the "turn of life." Sometimes the menstrual flow is too much or too little, or may be attended with pain; may be irregular or entirely checked, or changed in appearance, attended with other distressing symptoms. Leucorrhea or the "Whites," frequently drains the system, or ulceration of the womb may

out life. Lives there a medical gentleman who has or can relieve the fair sex of the above troubles? Not many. Is there no

and Female Regulator known, will cure all those complaints above mentioned in an incredibbly short time. The Bitters at once arouses, strengthens and restores the womb to its natural condition, removing obstructions, relieving pain and regu-lating the monthly period. Yonder stands a pale, feeble and languid girl, just bursting into womanhood; she is the pride of all, but bark! she silently steals a pickle, eats chalk, or a slate pencil; no appetite for tood; she turns with a dull eye and seeks solitude; her eye no longer sparkles; her merry laugh is no longer heard ringing through the air; she mopes about with bloodless lips and gums, with head

In all these complaints the system evidently shows a want of red blood, and Mr. Churchill, in his work on the Diseases of Females, says: "Bearing in mind that the blood is remarkably deficient in red corpuscles, and the known property of iron to correct this condition, theory suggests it as the most to be relied on, the best of which is the Oitrate." Citrate of

This root we have obtained, gave it a fair test in our practice, and it is now one of the principles in these Bitters. Other powerful uterine and general tonics also enter into its composition. We also add Leptandra or Black root sufficient to act upon the liver and keep the bowels open. Blooming Young Girls, Middle-aged matrons, those at the critica-

Female Bitters give entire relief.

Those at the "turn of life," mothers after confinement, and all others (male or feniale) who are convalescents from any protracted or debilitating complaint, who gain strength slowly, and whose digestion is slow and imperfect, will find these Bitters the very thing their system demands. It gives a powerful appetite, aids and assists digestion, arouses the liver, strengthens mentally and physically, and fills the whole system with pure crimson blood
